Dear Dr. Rizk,

Your paper, *Lower Eyelid Blepharoplasty: An Algorithm for the Analysis of Indications and Treatment*, was well received at the Northeastern Society meeting in Philadelphia. It is most worthy of publication in *Annals of Plastic Surgery*, should you wish to submit it.

You may have until December 15 to polish your manuscript and get it to me in its final form. We plan to publish all the NESPS papers in a dedicated issue in the Spring of 2002. Of course, your work must not have been submitted to another journal if it is to be placed with the *Annals*.

We already have a good start toward filling this meeting's issue, and I hope you will give full consideration to putting in the additional time to ready your manuscript for publication. Special instructions and a copy of *Guidelines to Authors* are enclosed.

I look forward to hearing from you in the near future, and congratulations on a successful presentation in Philadelphia. My best personal wishes.

Sincerely,

William D. Morain
