

Dear Dr. Ryzk,

There are so many things I want to say to you. For someone so incredibly talented and skilled, you remain humble and non-self-absorbed. From the first time I met you, I felt sure of your expert capability. You were able to remove all my fears and I knew I was in great hands. You have a beautiful personality and you are truly a beautiful person. These qualities emit from you like a ray of sunshine. Your spirituality is very special to me. It says a great deal about a person who possesses it. You allow it to be evident in a gentle way. I believe when someone puts God first, they have realized

the most important thing in life. It is this that makes all things possible. Thank you for revealing this most special part of your being.

Your staff are all incredible. I think they are all perfect. You can clearly see that everyone is happy, professional, and truly cares about the patients.

Thank you from my heart!
