*Dear Doctor Rizk when Michaelangelo was asked how he managed to carve David from a single block of marble Michaelangelo said, "David was always in there. I merely set him free."*

*And while most scientists agree that we will never be able to create a time machine, the likes of which were written about by H.G. Wells, Doctor Rizk has managed to create for me a tribute to both of these masters. It is as if through a time machine, Doctor Rizk has brought me back many years and freed the girl I use to be. My neck and face lift both seem to have been done by yet another master. Thank You Doctor Rizk!*
