

Dear Dr. Rizk -

I cannot think of anyone who has made a greater impact on my life than you have. I was never a very pretty girl and never as popular as many kids in high school. After a long marriage, I went through a divorce that all but destroyed my self esteem. I felt abandoned, discarded, invisible, old and haggard. I thought my life was over and that it was too late to rebuild it. The God blessed me and I met you.

Dr. Rizk, you did not just perform surgery, your incomparable skill & unique talent performed a miracle on my face. You not only restored my self esteem, you gave me a confidence and self love I never had when I was young. I look in the mirror and feel like I have my whole life ahead of me. I feel like there is nothing I can't do. I feel young again.

I went to my 40th high school reunion on Nov. 7, 2011. Out of 200 students I was the talk of the graduation class. I could hear groups of women exclaim, "Did you see her? Did you see how fantastic she looks?" The women were shocked and the men surrounded me. My ex-husband wants to re-visit and my whole life has turned 360° thanks to you! Thank you doesn't seem adequate for I could never repay the gift of beauty you gave me. All I can do is love, honor & admire you for the rest of my life. May you receive all that you give. You deserve the best because you are the best. Love
The Best. Love
