Dear Dr. Risk:

It is with great pleasure, as a 50+ year-old professional entertainer, wife and mother, that I am writing this letter of recommendation, detailing my very positive experiences under your care.

As you know, I had face, eye and neck lift surgery in January and two weeks ago you did extensive reconstruction work on my nose and sinuses. My only previous experience in plastic surgery was at age 16, when a top New York surgeon did a bad rhinoplasty that I have regretted ever since.

Thanks to your unique skills and incredible artistry, I am a new person, completely thrilled with my looks. I am sincerely grateful for my rejuvenated face, eyes and neck, which are now like the features of a thirty year old.

Your alteration and enhancement of the structure and symmetry of my collapsed nose, was a wonderfully successful procedure that no other Doctor would attempt. And I can breath again!

I hope you can use my 'before' and 'after' pictures to show all prospective clients the miracle I am delighted to see in the mirror every day.

Also, thanks for taking such excellent care of my friends who continue to come to you, after they see the youthful transformation in my appearance.

I heartily recommend you for all procedures you wish to undertake and please feel free to have potential clients call me at the above telephone number to discuss this further.

Gratefully yours,

R.K.
