

Dear Dr. Rizk,

It took me 20 years to make the decision to have this surgery, and I feel so lucky to have come across your practice. I couldn't have asked for a better surgeon. I felt completely at ease from start to finish. And I truly appreciate how easy your office made it for me as an out-of-town patient.

I know you said patients often get you gifts and that you don't really know

A SPECIAL THANKS TO YOU
FROM ME.

where to put them, but I couldn't resist a little "thank you" that seems a perfect combination of some of your qualities. It's a photo I took earlier this year at the Egyptian Museum in Berlin. Since you're a sculptor, it seemed on point!

Thank you again,

Anna Whistler
