

Dear Dr. Rikh,

I remember the first time I went to your office with my daughter (who was a grown woman at the time) to correct surgery on her nose which another surgeon had done poorly. My daughter & I were speaking to the anesthesiologist just before her procedure in your office, who said 40% of your work was fixing the mistakes other surgeons have made. Well you did a terrific job on giving her a beautiful nose.

About Two years later I returned to have my whole face done. I had just gone through a six year difficult divorce & the aging process seemed to have accelerated during this period & taken it's toll on me.

From the first day I went for my

consult you & your staff made me feel
so at ease & I knew I was in good hands.
Your skills far surpassed my wildest dreams.
I had my entire face done (not changed)
with out any pain. I stayed at the hotel
you recommended for two nights because
of all the procedures, thinking I didn't
want to leave anything that might go
wrong to chance. It was a great experience,
I felt terrific & the nurses, Franice,
Barbara & Maureen became a wonderful
extension of you & your staffs amazing
way of handling your clients. Thank
you for your gift of making me look
& feel ten to fifteen years younger &
for being a big part of me starting my
life over with such wonderful results.

I remember sitting in your office
reading all the letters past patients
wrote raving about their results after

you performed surgery on them & thinking
... "sure, sure, sure, This is too much.
O.K, O.K., maybe he's good but words
like genius, an angel, hands from God
was a bit much". Guess what, they
are right!! You are unbelievable, so
kind and a perfectionist, on top of being
highly skilled. If any woman out there
ever needed to have facial plastic surgery
done, this is the place to go. I've seen
many friends & acquaintances who paid
a lot of money & the results are not as
natural as the work you do & they went
through hell on top of that to recover.

Thank you Dr. Reik, members of
your staff, Delia, Tatiana, Franie, Rose
Marie & forgive me if I left anyone out.
I extend my heart felt thanks to all of you.
Sincerely,

D. A.
