

Dear Sam

Well, it has been 2 years since you have recontoured my nose and the compliments continue to pour in! I must say it was a long journey of consultations with some of NYC's most well known facial plastic surgeons until I stumbled upon your Upper East Side office. I knew from the second that I met you.. that you were "the one" ha ha. None of the others could compare!

You instilled in me a sure confidence, instantly making me feel that my surgery was left in the hands of a true professional, mastermind, artist. Now after sending you all of my closest friend's and family's faces...I stand my ground on claiming you as the most talented surgeon out there! Your work is truly exceptional Sam.. as are you!

To have the ability to be able to change people's lives is something that must make you extremely proud. Your talent is truly unsurpassed Sam! I will continue to refer to you all of my patients, clients, family and friends...because I believe in your work that much! It makes me feel great to share that gift, that you so naturally render, to others!

Thank you for being the brilliant surgeon that you are.. and thank you for being such a wonderful friend!

P.S.- I need more of those business cards! ☺

Truly & Sincerely,

M.F.
